

Save up to 50% off airport parking reservations while booking a trip.

Trying to find last-minute airport parking can be stressful and expensive. An airport garage can cost up to \$30 more per day than an off-airport lot. The Rearden Personal Assistant Travel Smart App offers travelers and their companies a convenient, cost-effective alternative.

With the Rearden Personal Assistant, travelers can easily reserve off-airport parking at more than 70 airports in the U.S. and U.K. Each lot features secure, well-lit parking, luggage assistance, and frequent shuttle service to and from the terminal. Important details like drop-off time, driving directions, and shuttle information are automatically added to the traveler's calendar.

What's more, the Rearden Personal Assistant makes it easy for travel managers to encourage the consistent use of off-airport parking and save up to 50% compared to on-airport parking.
