

Gain increased visibility and control over car service spending and save up to 22%.

The Rearden Personal Assistant Travel Smart App gives travelers the convenience of reserving chauffeured car service online. With easy access to a nationwide network of dependable providers, they can compare service options by rate, vehicle type, provider, provider rating and corporate policy. The result? Superior convenience and savings up to 22%. Travelers can also invite others to share a ride. Every reservation comes with an email confirmation, and the traveler's calendar is automatically updated with the reservation details. Reservations can also be changed or cancelled online.

For travel managers, the Rearden Personal Assistant helps get executives to their destinations, while increasing control over car service spending. Companies can also establish spending policies and guide employees to preferred car service providers offering negotiated rates.

Savings for Companies:

- Save up to 22% by increasing visibility into and control over car service spending
- Leverage Rearden Commerce preferred provider discounts and/or load your existing rates
- Save money by letting employees comparison shop for car service
- Proactively communicate spending policies at the point of purchase

Convenience for Employees:

- Quickly reserve car service online from a vast network of dependable providers
- Compare car service options by rate, vehicle type, provider, and company policy
- Easily change or cancel reservations with a mouse click
- Get automatic calendar updates with reservation details and invite others to share a ride
