Rearden Commerce and Travel Management Companies Join Forces to Deliver the Total Travel Experience™

DISTRIBUTOR PROGRAM OPENS UP NEW CHANNELS

SAN MATEO, Calif. – April 10, 2006 – Rearden Commerce, Inc., the largest online marketplace for services of all kinds, today announced agreements with more than 12 regional travel management companies (TMCs) to expand delivery of its Total Travel Experience™ to businesses across the United States. By joining with Rearden, TMCs can offer their customers the only integrated commerce platform and marketplace for managing all aspects of corporate travel – from booking to policy compliance – reducing the cost and complexity of corporate travel management.

“With up to 40 percent of travel and entertainment expenses still unaddressed by first-generation booking tools, businesses are looking for ways to effectively manage the cost of travel and ensure compliance with corporate policy, while also making the booking process simple and quick for employees,” said Tony D’Astolfo, vice president of Travel Services at Rearden Commerce. “The Rearden Commerce platform lets TMCs add immediate value to their customers: it provides a single, simple-to-use tool for employees to book and manage all aspects of travel and entertainment; it gives internal travel managers full control over policy; and it gives TMCs a way to continuously add new services to their portfolio -- expanding their value to clients as well as their business opportunity.”

Travel Management Firms Deliver Rearden Total Travel Experience

The Rearden Commerce Distributor Program will leverage select regional TMCs to deliver the Rearden Commerce solution to new companies and geographies, identifying and certifying TMCs that have well-established client relationships, a reputation for outstanding customer service, diversified offerings, successful client deployments and a proven track record for delivering more value to the business traveler.

The Rearden Commerce Total Travel Experience defines a new era of travel management, going beyond online booking of air, hotel and car to address the changing demands of today’s corporate travelers. With the only integrated commerce platform and marketplace for all types of services, Rearden Commerce orchestrates all aspects of a trip including travel, dining, entertainment, web and audio conferencing; manages compliance with corporate policy; and integrates booked services with the traveler’s calendars, among many other capabilities. Unlike legacy online booking systems, Rearden Commerce makes it easy to add new services over time, offering businesses and TMCs a central platform for all aspects of the traveler’s experience.

Rearden Commerce’s relationships with regional TMCs complement its existing agreement with BCD Travel (formerly WorldTravel BTI). BCD Travel is the third largest TMC in the United States and has been a Rearden Commerce Global Distributor since December 2005.

To date, Rearden Commerce has selected 12 Regional TMCs to deliver the Total Travel Experience:
