

FOR IMMEDIATE RELEASE

21 New Travel Management Companies to Deliver the Rearden Commerce Total Travel Experience™

REARDEN COMMERCE DISTRIBUTOR PROGRAM MORE THAN DOUBLES TO INCLUDE 33 TRAVEL MANAGEMENT COMPANIES

CHICAGO, Ill. – July 18, 2006 – Today at the 2006 National Business Travel Association (NBTA) Convention & Tradeshow, Rearden Commerce, Inc., the largest online marketplace for services of all kinds, today announced the significant expansion of the company's Distributor Program, with 21 new regional travel management companies (TMCs) joining forces with Rearden to deliver the Total Travel Experience™. By joining the program, TMCs can offer their customers the only integrated commerce platform and marketplace for managing all aspects of corporate travel—from booking to policy compliance—reducing the cost and complexity of corporate travel management. Rearden Commerce now works with 33 regional TMCs nationwide.

“We’re pleased to expand our channel program with such a superb group of industry leading travel management companies,” said Tony D’Astolfo, vice president of Travel Services at Rearden Commerce. “This program is part of our ongoing efforts to make it simple and easy for companies to leverage the Rearden Commerce Network. The rapid expansion of our distributor network is a strong testament to the value we can provide for TMCs and their customers.”

TMCs Join Forces with Rearden Commerce to Deliver the Total Travel Experience

The Rearden Commerce Total Travel Experience defines a new era of travel management, going beyond online booking of air, hotel and car to address the changing demands of today’s corporate travelers. With the only integrated commerce platform and marketplace for all types of services, Rearden Commerce orchestrates all aspects of a trip including travel, dining, entertainment, car service, airport parking and web and audio conferencing; manages compliance with corporate policy; and integrates booked services with the traveler’s calendars, among many other capabilities. Unlike legacy online booking systems, Rearden Commerce makes it easy to add new services over time, offering businesses and TMCs a central platform for all aspects of the traveler’s experience.

The Rearden Commerce Distributor Program enables selected regional TMCs to deliver the Rearden Commerce solution to new companies and geographies. Rearden identifies and certifies TMCs that have well-established client relationships, a reputation for outstanding customer service, diversified offerings, successful client deployments and a proven track record for delivering value to the business traveler.

Rearden Commerce provides all TMCs selected for the program with training and tools to be successful, including sales and marketing materials and programs, solution training and certification as well as the latest support services. All TMC distributors selected to join the program will complete training courses covering the Rearden Commerce solution or specific Rearden Commerce modules. Training is conducted online and in-person, with TMCs achieving official certification once course work is successfully completed.

Rearden Commerce's relationships with regional TMCs complement its agreement with BCD Travel (formerly WorldTravel BTI). BCD Travel is the third largest TMC in the United States and has been a Rearden Commerce Global Distributor since December 2005.
